

Advanced Genetic Services

Purebred breeders,

I want to congratulate Kevin Moore on his, M6 Advanced Genetic Services business. Precise Genetics has been doing the embryo transfer work at M6 Ranch since 2006 and I have worked with M6 for years prior to establishing our present ET service company. We have achieved outstanding results with donor embryo production and pregnancy results from frozen and fresh embryos. Outstanding results just don't happen. They represent good management, nutrition and attention to detail. Protocols are followed exactly as written and donors are bred ON TIME regardless of the hour, day or night.

M6 does the above very well. That is why our results have been outstanding. M6 is doing a professional job with this venture because they pay attention to detail.

Congratulations Kevin on doing such a good job and look forward to working with you in growing this service.

Harley Schneider, Ph.D.
Precise Genetics, Inc.

Dear Progressive Cattle Producers,

Embryo Transfer and Artificial Insemination are necessary tools to advance any purebred operations genetics. The use of ET and AI in the M6 breeding program has helped M6 Ranch become recognized as an industry leader in maximizing genetic progress.

M6 Ranch is an ongoing success story thanks to our long term relationship with Harley Schneider, Ph.D. and the entire Precise Genetics Inc. team. M6 Ranch officially started setting up donors, setting up recipis and Artificial Inseminating females for the public in 2004. The M6 Ranch is an ET Center for Precise Genetics Inc. and provides the following services.

M6 Advanced Genetic Services

Donor care and flush set up, Ad quality photography for donor(s), Artificial Insemination and Estrous Synchronization, Recip care and ET setup and Sell pregnant recipis when available. Haul-in recipis are also welcome.
